

Committee	General Purpose Committee
Subject	On Street parking in Machynlleth
Date	06/02/23
Author	Town Clerk

On 20th of October the Town Council received correspondence from Cadfarch Community Council complaining about parking along Forge Road, specifically outside the Treowain houses opposite the entrance for the industrial estate.

Following discussions between the Clerk and Mr Chris Lloyd (Montgomeryshire Area traffic Engineer, Powys County Council) the Town Council decided to ask the General Purpose Committee to work with Powys County Council on a town wide review of on street parking arrangements and to raise these concerns as part of that review.

Recommendations :

- **That the Panel lists any problems with or changes it would like to see to on street parking arrangements in the town. The Clerk will then submit the list to Mr Chris Lloyd of Powys County Council who will review it and attend a future meeting of the Panel with a consistent proposal for the town taking into account the concerns raised.**
